CHARTER ECONOMIC INDICATORS
SEPTEMBER 1991
HIGHLIGHTS

CANADIANA

SEP 15 1992

Manufacturing Output: The manufacturing output index rose to a three-month high of 100.0 in August. In September, the seasonally adjusted index in Canada. The total number of persons employed declined by 11,000 over the week two months ago but the unemployment rate rose to 10.0%.

ALBERTA ECONOMIC DEVELOPMENT AND TRADE

MONTHLY ECONOMIC REVIEW

In August and September, mining, manufacturing, and health and social services and remained unchanged in agriculture.

Output: The index of output for the three sectors of the economy in July 1991 compared to July 1990, showing a rise of 20.0% in manufacturing output and 10.0% in the non-manufacturing sector. The July figures, however, are not representative due to the 20.0% increase in output in a year-to-date basis. A downward trend in output in the three sectors showed signs of recovery with the total up 17.0% in August 1991 over August 1990.

Employment and Unemployment: The total number of persons employed in the three sectors rose by 10.0% over the week two months ago and the unemployment rate fell from 10.0% to 9.0%.

Exports: Exports, services and exports rose by 4.0% in August 1991 compared to July 1991 with a 4.0% increase in the total value of exports. Exports to Alberta declined by 2.0% in August 1991 compared to July 1991, a similar change over the

three months period over the three months period.

Imports: Imports, services and imports rose by 4.0% in August 1991 compared to July 1991, a similar change over the three months period over the three months period.

SEPTEMBER, 1991

Exports: Exports, services and exports rose by 4.0% in August 1991 compared to July 1991, a similar change over the three months period over the three months period.

PREPARED BY:

ALBERTA ECONOMIC DEVELOPMENT & TRADE
POLICY DEVELOPMENT & COORDINATION BRANCH
OCTOBER 21, 1991
(PRODUCED ON ASIST)

Imports: Imports, services and imports rose by 4.0% in August 1991 compared to July 1991, a similar change over the three months period over the three months period.

CURRENT ECONOMIC INDICATORS SEPTEMBER 1991 HIGHLIGHTS

Employment/Unemployment: The unadjusted unemployment rate in Alberta declined from 7.8% in August to 7.4% in September, the second lowest rate in Canada. The total number of persons employed declined by 27,000 over the same two month period while unemployment declined by 8,000. By industry, unemployment rates declined in construction, retail trade, business services, and accomodation, food and beverages in September; increased in logging and forestry, mining, manufacturing, and health and social services; and remained unchanged in agriculture.

Housing: The total value of building permits in Alberta declined by 12.5% in July 1991 compared to July 1990, despite gains of 25.4% in residential permits and 181.9% in the institutional/government category. The July figure, however, was an improvement over the 24.6% loss registered on a year-to-date basis. A downward trend in urban dwelling starts showed signs of reversal with the total up 12.8% in August 1991 over August 1990.

International Travellers: The total number of non-residents entering Alberta in July 1991 decreased by 8.9% over the same month last year. This despite increasing visitations from Germany, the Netherlands, Switzerland and Hong Kong. (Note: U.S. figures exclude same-day entries. See data table for additional note).

Domestic Trade: Restaurant, caterers and tavern receipts declined by 8.1% in June 1991 compared to June 1990 and by 4.9% on a year-to-date basis. The total value of retail trade in Alberta declined by 2.8% in July 1991 compared to July 1990, a somewhat slower pace than the

4.8% decline registered over the first seven months.

Manufacturing: The total value of Alberta manufacturing shipments in August 1991 was virtually unchanged from the figure registered in August 1990. On a year-to-date basis, shipments remain up 1.2% over values from last year, the strongest and only growth registered in Canada.

Energy: Both natural gas and crude oil and equivalents production continued to increase in June 1991, posting gains of 2.3% and 2.0%, respectively, over levels recorded in the same month last year. Rig activity continued to decline into August with the number of rigs drilling down 14.8% in August 1991 compared to August 1990.

Agriculture: Following a 14.8% decline over the first quarter, farm cash receipts derived from crops increased by 4% in the second. Livestock receipts, however, declined 1.5% and contributed to an overall loss of 2.0% in value compared to the same quarter last year.

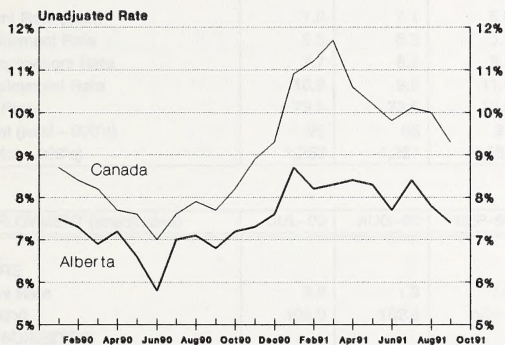

Exports: Despite losses registered in end products, the total value of Alberta exports increased by 5.4% in July. Although exports increased at a slower pace than the rate posted in June, value is up 14.1% on a year-to-date basis, the highest rate of growth in Canada.

Bankruptcies/Incorporations: Following a 23.4% increase in July, business bankruptcies in Alberta declined by nearly 14% in August 1991 compared to August 1990. Consumer bankruptcies increased 20.7% over the latest period. Both Alberta and non-Alberta corporations declined in August, by 6.2% and 9.0%, respectively.
